This Warden Message alerts U.S. citizens in Japan to the latest information regarding human cases of H1N1 Influenza A, formerly known as swine flu. Please disseminate this message to U.S. citizens in your organizations or to other Americans you know.

The Government of Japan has confirmed that three persons who arrived at Narita International Airport on Friday May 8, 2009 are infected with the H1N1 virus.

Japanese authorities have taken the following steps in response:

- The three individuals have been placed under quarantine at a hospital in Narita for treatment.
- Another 49 people who were on the plane and sitting near the infected individuals are being confined for 10 days at a hotel near the airport to prevent the spread of the disease.

U.S. citizens in Japan are advised to monitor the Embassy website at: <http://japan.usembassy.gov/> or sites for the nearest Consulate for additional warden notices and other information.
