U.S. BAR EXAM STUDY COURSE

New Skills-Focused Approach, New Materials! The TUJ Law U.S. Bar Exam Study Course is a comprehensive lecture series on techniques and strategies to take a U.S. state bar exam. The course is **redesigned** to focus on skill-building to take a bar exam effectively. Students will learn the mechanics and structure of a bar exam, time management, understanding and applying substantive law rules, and problem-solving techniques. The course gives students in-depth practice covering each part of the exam, the multistate/multiple-choice section ("the MBE"), state essays, and the multistate performance test ("MPT") questions. The course will use multiple resources, including updated materials, doctrinal lectures, classroom discussions, substantive outlines, many practice questions, and individual coaching. In this class, as with the bar exam, what matters most is results, and our goal is to make sure that each of you can use these various inputs to produce successful outcomes.
