Certificate Programs

TUJ Continuing Education offers certificate programs in various fields. These certificates offer proof of concentrated study and your competitiveness. In less than a year, earn a credential to help you reach the next step—whether it's advancing to senior management, starting a business, or pursuing a new career. TUJ certificates fit your life, with flexible options for evening, weekend, and online formats. Featuring subjects ranging from business, finance, marketing and leadership, our certificates prepare you with the skills you need to set yourself apart from your professional peers.

Certificates are earned by successfully completing a set of core and elective courses. Typically, certificates require between 6 and 12 Continuing Education Units (CEUs), and can be completed with 3 to 6 semesters (1-2 years). One CEU is earned for every 10 hours of classroom instruction and satisfactory coursework.
